

**We envision a Georgia where all children are healthy, primed for school, and succeed when they get there; where families are stable, self-sufficient, and productive; and where communities are vibrant, robust, and thriving.**

**Georgia Family Connection connects and convenes key community members committed to improving the well-being of children and families. We connect our partners to the resources they need, coordinate and manage efforts, and empower our communities to craft local solutions based on local decisions.**
